

Burkina Faso companies that manufacture optical modules

AI Overview

Burkina Faso has electronics and fiber optic companies that may supply or manufacture optical control modules, though local production is limited. Electronics Companies in Burkina Faso As of 2026, there are 61 electronics companies operating in Burkina Faso, covering a range of services from electronic components to industrial solutions. While most focus on general electronics, some may provide optical control modules as part of their product offerings or through partnerships with international suppliers. Examples include companies involved in industrial electronics, automation, and sensor technologies. Fiber Optic and Optical Sensor Suppliers Several international companies serve Burkina Faso with optical-fiber sensors and related modules:

- Advanced Energy (Luxtron):** Offers fiber optic units for medical and industrial applications, including temperature and control modules.
- Opsens Solutions:** Develops and supplies fiber optic temperature sensors and control systems for industrial and research applications.
- Optocon (Weidmann Group):** Specializes in fiber optic temperature measurement solutions and complete systems for industrial use.
- PyroScience GmbH:** Manufactures optical pH, oxygen, and temperature sensors suitable for industrial and scientific applications.
- Omnisens:** Provides fiber optic-based monitoring solutions for energy industry assets, including strain and temperature sensors.
- Fiber SenSys, Inc. (FSI):** Produces fiber-optic intrusion detection systems and related optical modules for security and industrial networks.

Considerations for Local Manufacturing Currently, Burkina Faso has limited local production of specialized optical control modules. Companies in the electronics sector may assemble or integrate imported modules rather than manufacture them entirely domestically. For procurement, businesses often rely on international suppliers that serve the Burkin...
