

Cable bridge in Azerbaijan

Overview

The 380-kilometer Trans-Caspian Fiber Optic Cable Line will connect Sumgait in Azerbaijan with Aktau in Kazakhstan, delivering up to 400 terabits per second of capacity and offering Eurasia a new digital corridor that bypasses Russia and the Red Sea. Azerbaijan and Kazakhstan are weeks away from finishing the world's first submarine fiber-optic cable across the Caspian Sea, with commissioning targeted for the third quarter of 2026. The construction of cable-stayed bridges is challenging. Here it seems to have been extremely successful. The road. Initiated by NEQSOL Holding and implemented through its subsidiary AzerTelecom, the Digital Silk Way is a large-scale digital infrastructure project designed to build a high-capacity transit fiber-optic network linking Europe with Central and South Asian markets / Digital Silkway The Trans-Caspian.
