

Cable tray installation nut price

AI Overview

Cable tray flange nuts typically range from £10 to £25 per 50-100 pack in the UK, depending on size and material. Pricing Overview M6 x 16mm bolt & flange nut set (100 pack): Available from Direct Channel UK, these BZP mild steel nuts with fully threaded truss head bolts are designed for secure cable tray fastening. Prices for similar packs generally start around £20-£25 per 100. M6 x 12mm hex flange nut with bolt (100 pack): Channel and Tray offers bright zinc-plated nuts with fixed washers to prevent slippage, typically priced around £15-£20 per 100. Packs of 50 flange nuts with tray bolts: Electrosw supplies carbon steel bolts with serrated flange nuts, suitable for indoor installations, with prices usually in the £10-£15 range per 50 pack. Factors Affecting Price Size and Threading: Larger bolts or longer threads (e.g., M6 x 50mm) cost more than smaller sizes (M6 x 12mm). Material and Finish: Zinc-plated or BZP steel is common; stainless steel or corrosion-resistant finishes may increase cost. Pack Quantity: Buying in bulk (100+ nuts) often reduces the per-unit price. Supplier and Delivery: UK suppliers like Direct Channel, Shop4Fasteners, and Fixmart offer fast delivery, sometimes free for orders over a certain amount, which can affect overall cost. Purchasing Tips Check compatibility: Ensure the nut size matches your cable tray bolts (commonly M6). Consider bulk orders: For large installations, bulk packs reduce cost and minimize repeated orders. Delivery and stock: Some items may be backordered; confirm availability to avoid project delays. By comparing suppliers and pack sizes, you can select the most cost-effective option for your cable tray installation while ensuring secure and reliable fastening.
