

Codes inside the distribution box

Overview

Common codes include Code 1 for early distributions under age 59½, Code 7 for normal distributions, Code G for direct rollovers, and Code 4 for distributions due to death. Form 1099-R is used to report passive income, such as annuities or pensions, or distributions made from retirement plans. Enter the information from your 1099-R exactly as is. A distribution box is a low-voltage electrical enclosure that receives incoming power and distributes it safely to multiple outgoing circuits through protective and switching devices such as MCBs, RCDs, RCBOs, fuses, isolators, busbars, neutral bars, earth bars, and surge protective devices. Inside, you'll find parts like circuit breakers and fuses that protect the system from problems like overloads and short circuits. It ensures that electricity flows.
