

EU Tier 1 Electrical Distribution Box Customization Company

AI Overview

Leading European companies like E-Abel, Delvalle Box, IDE Electric, and ELDI provide fully customizable, high-quality electrical distribution boxes compliant with EU standards. Key Companies and Capabilities

E-Abel specializes in custom electrical distribution boxes for industrial, commercial, and residential projects. They offer requirement analysis, 3D digital twin design, material selection (steel, stainless steel, aluminum), assembly, wiring, and rigorous testing including environmental simulations. Their panels are tailored for safety, reliability, and efficiency, with modular layouts and optional smart integration for residential or commercial applications.

Delvalle Box manufactures high-resistance enclosures for demanding industrial environments. They provide full consulting and engineering services, delivering fully integrated cabinets with all necessary components. Delvalle emphasizes 100% customization, short lead times, CE-certified quality, and scalability from prototypes to large series, ensuring compliance with EU directives and IEC 61439 standards.

IDE Electric offers metal and combination cabinets for industrial automation and machine control. Their enclosures are made from high-quality cold-rolled steel, with a wide range of accessories and protection ratings (IP44-IP67). IDE Electric supports custom configurations without minimum quantity restrictions, providing flexibility for both small and large projects.

ELDI provides flexible technical solutions for distribution boxes, from small control panels to large automation cabinets. Their products comply with EU Low Voltage Directive 2014/35/EU and EMC Directive 2014/30/EU, and all cabinets are tested and CE-marked. ELDI can also adapt cabinets to meet regulatory requirements in other regions, offering full transparency in cost and design.
