

Features of Canadian Ladder Cable Trays

Overview

Custom designed, high quality cable tray systems which are reliable, robust and cost effective. Ideal for power and control cables. Ladder cable trays are designed for large-scale installations, providing a sturdy and accessible structure that makes it easy to manage heavy cable loads. Their ladder-like design enhances cable organization and routing by supporting cables at regular intervals, improving ventilation, reducing heat. A cable tray system is a unit assembly of sections and fittings that forms a rigid structural system used to securely fasten or support cables and wiring. Wire mesh for sensitive. Code manufacturing has built a reputation as being the fastest provider of cable trays in Western Canada.
