

Fiber optic patch cord multimode round connector

Overview

These multimode fiber optic patch cables consist of circular-core step-index multimode fiber and have an FC/PC connector on one end and an SMA905 connector on the other end. They are available from stock in 1 m and 2 m lengths. You plug one end into a switch or ODF, the other into. These short fiber optic cords connect transceivers, switches, patch panels, and servers. Each patch cable includes two protective caps that shield the cable. Whether you're cabling a new AI training cluster, upgrading a campus backbone, or just replacing aging patch cords in a colocation cabinet, this guide walks you through every decision point with actionable criteria. 1 What Is a Fiber Optic Patch Cable?
