

Foreign optical module companies

AI Overview

Key foreign manufacturers of optical modules include Coherent (Finisar), Cisco (Acacia), Marvell, Broadcom, Intel, II-VI, Lumentum, and NeoPhotonics. Leading Foreign Companies

Coherent (Finisar) – A major U.S.-based optical module supplier, Finisar (now part of Coherent) specializes in high-speed optical transceivers and coherent modules for data centers and telecom networks, consistently ranking among the top global suppliers .

Cisco (Acacia) – Cisco acquired Acacia Communications, a leader in coherent optical modules, providing solutions for long-haul, metro, and data center interconnects .

Marvell – Known for high-performance optical interconnect solutions, Marvell supplies modules for hyperscale data centers and enterprise networks .

Broadcom – A dominant player in optical ICs, Broadcom produces high-speed driver ICs and optical transceiver chips supporting 100G, 200G, 400G, and higher data rates, widely deployed in hyperscale and telecom networks .

Intel – A pioneer in silicon photonics, Intel develops integrated photonic transceiver chips for coherent and direct-detect optical links, enabling 400G and 800G connections .

II-VI/Finisar – II-VI, after acquiring Finisar, provides a broad portfolio of optical modules and photonic integration solutions for high-speed networking .

Lumentum – Specializes in optical components and modules, including coherent and direct-detect transceivers for telecom and data center applications .

NeoPhotonics – Focuses on high-speed optical modules and silicon photonics solutions for long-haul, metro, and data center networks .

Market Context Foreign manufacturers have historically dominated the optical module market, particularly in high-speed photonic chips and silicon photonics integration. They supply critical components for global fiber networks, 5G infrastructure, and hyperscale data centers. While Chinese manufacturers like Innolight, Huawei, and Eoptolink have risen in market share, companies such as Coherent, Cisco, and Marvell remain key foreign players . These...

Article Content

The latest ranking of the TOP10 global optical module suppliers ...

A few days ago, LightCounting, a well-known market research organization in the optical communication industry, released the latest market report and updated the TOP10 ranking of global

From optical modules to chips -

Chinese companies have outperformed foreign rivals in power semiconductors and are gaining ground in cabin-entertainment and body-control chips, though high-end autonomous-driving

Optical Modules Market Research Report 2034

Optical Modules Market Outlook 2025-2034 The global optical modules market was valued at \$14.8 billion in 2025 and is projected to reach \$39.6 billion by 2034,

Top 10 Companies in the Optical Modulators Materials

MARKET INSIGHTS Global Optical Modulators Materials market size was valued at USD 2.64 billion in 2024. The market is projected to grow from

Top 10 Optical module manufacturers in the World 2025

Are you curious about which optical module manufacturers stand out in today's competitive market? Understanding the top factories is crucial for making informed decisions. By knowing the best

Top 10 Optical Module Manufacturers' Annual Reports ...

The only domestic company simultaneously possessing mass production capabilities for a full range of high-speed optical modules: 400G, 800G, and 1.6T; product performance

directory-list-2.4.txt/directory-list-2.4.txt at main

Customer stories Events & webinars Ebooks & reports Business insights GitHub Skills ...

Top 10 Global Optical Modules in 2023: Chinese

LightCounting stated that the above chart shows the changes in the TOP10 list of optical module suppliers over the past decade or so. By 2018, most

Source Photonics to Expand Optical Chip and Module Production

The company has established mass-production capabilities in EML lasers and high-speed optical modules, and its products have already shipped in volume to leading global cloud

From optical modules to chips: China's tech supply chains sustain ...

Chinese companies have outperformed foreign rivals in power semiconductors and are gaining ground in cabin-entertainment and body-control chips, though high-end autonomous-driving

Optical Module Market Size, Competitors & Forecast to

The Optical Module Market, valued at USD 30.01B in 2026, is projected to reach USD 66.94B by 2032, growing at a 14.1% CAGR.

Top Optical Modules Companies & How to Compare Them (2025)

Access detailed insights on the Optical Modules Market, forecasted to rise from USD 3.5 billion in 2024 to USD 8.2 billion by 2033, at a CAGR of 10.3%. The report examines critical market...

Global Optical Module Suppliers TOP10 Ranking Changes

In the 2021 annual optical module shipments TOP10 list released in 2022, the number of Chinese enterprises has increased to five, with the addition of HISILICON and Eoptolink, and the

Optical Module Package Market 2025

FREQUENTLY ASKED QUESTIONS: What is the current market size of Global Optical Module Package Market? -> Optical Module Package Market was valued

Nvidia's \$4B Photonics Venture: What You Need to Know

Nvidia's \$4B investment in optical component suppliers Lumentum and Coherent heralds an era of optical interconnects inside AI data centers.

Top 10 Optical Module Brand & Manufacturers

Find the Top 10 Optical Module brand, manufacturers, and exporters. Get the contact details and addresses of companies producing Keywords.

Top 10 Global Optical Modules in 2023: Chinese

Recently, LightCounting, a market research institution in the optical communication industry, released the latest version of the 2023 global optical

Global Optical Module Suppliers TOP10 Ranking Changes

Looking at the recently released 2023 Global Optical Module TOP10 list, Chinese companies even occupy seven seats, with Xutron Technology ranking first for the first time and

Optical Component Startup Tracker

The number of venture-backed optical component startups has exploded - the Optical Component Start-Up Tracker identifies these companies and their value propositions.

Nvidia to invest \$4B into photonics companies

Nvidia is investing a combined \$4 billion in Coherent and Lumentum, two photonics companies. Each company will receive \$2 billion each from the

Foreign manufacturers of optical modules and optical chips

Foreign manufacturers have historically dominated the optical module photonic chip market, with Broadcom, Intel, Lumentum, II-VI/Finisar, and NeoPhotonics leading in high-speed

Top 10 Optical Module Manufacturers' Annual Reports ...

Top 10 Optical Module Manufacturers' Annual Reports! Highest Projected Growth of 3442%, Several Companies Monopolize Core Technologies (Latest 2025)

Chinese Optical Modules Own 7 of the Top 10 Seats. So Why Are

Seven of the global top 10 optical module suppliers in 2024 were Chinese companies (including Source Photonics, acquired by Chinese capital). Innolight and Eoptolink are estimated by

10 companies in the optical transceiver industry chain 2024

The rapid development of AIGC has promoted the demand for 800G optical modules, and the entire industrial chain involving optical components, optical modules, and optical communication
