

German Smart Distribution Box Supplier

AI Overview

Leading German manufacturers of smart distribution boxes include EFR GmbH, Wieland Electric, and Hesotec with their electrify Smart Box. EFR GmbH specializes in smart metering and smart grid solutions, offering a range of coordinated packages including modern metering devices, smart meter gateways, and control boxes. Their SGM series (SGM-C2, SGM-C4, SGM-C6, SGM-C8, SGM-SM eHZ, and SGM-D4 FNN basic meters) fully comply with the Measuring Point Operation Act (MsbG) and Bundesnetzagentur (BNetzA) requirements. Production and development are centered in Thuringia and Munich, with additional high-performance production partners in Asia, ensuring both compliance and scalability for the German market. Wieland Electric provides smart distribution boxes for decentralized electrical installation, suitable for residential, commercial, and industrial applications. Their solutions support pluggable installation, building automation, and energy-efficient smart buildings. Wieland emphasizes flexible, communication-enabled systems that comply with IEC 61439 and IEC 61535, enabling optimized construction processes and short planning times. Their distribution boxes are designed to withstand harsh environments, including moisture, making them suitable for diverse applications. Hesotec – electrify Smart Box The electrify Smart Box by Hesotec offers dynamic energy distribution and overload protection. It integrates with the cloud-based electrify charging management system (eLMS), allowing individual control of energy distribution for residential or commercial setups. The Smart Box is mounted on a top-hat rail, connected via LAN, and uses foldable measuring current transformers for precise load monitoring. It supports dynamic load management, including PV system integration for electric vehicle charging, and can operate independently of the internet once configured. Additional Manufacturers Other German companies producing electrical distribution boxes incl...
