

Horizontal optical cable and wire equipment manufacturer

AI Overview

Leading manufacturers of horizontal optical cable equipment include Rosendahl Nextrom, Guangdong Hongkai, and Corning, offering turnkey solutions and advanced fiber optic production technologies. Key Manufacturers

- 1. Rosendahl Nextrom**
Rosendahl Nextrom is a global leader in optical fiber and fiber optic cable production equipment. They provide complete solutions for fiber drawing, coating, ribbon making, proof testing, and cable production. Their machinery supports high-density fiber arrangements and small-diameter cables, with integrated monitoring systems like EFL for real-time quality control and RIO line control to track excess fiber length during production. They offer both full production lines and individual process equipment.
- 2. Guangdong Hongkai Optical Cable Equipment Technology Co., Ltd**
Founded in 2005 in Guangdong, China, Hongkai specializes in optical cable machinery and turnkey production services. Their equipment covers extrusion of loose tubes, SZ stranding, FTTH terminal fiber production, and fiber coloring. Hongkai emphasizes customizable solutions for cable length, type, and material, supporting both small and large-scale production. Their fiber optic cable production lines are scalable, with strict quality control and advanced technology for efficient manufacturing.
- 3. Corning Optical Communications**
Corning provides high-performance fiber optic components and integrated modules for OEMs and network infrastructure. While primarily known for fiber and connectivity solutions, Corning also offers structured cabling systems and training for installation and production processes. Their solutions are widely used in data centers, carriers, and enterprise networks, supporting high-speed and scalable optical networks.

Additional Notable Manufacturers

- OFS Optics:** Specializes in fiber-optic cables for telecommunications,...
