

How to raise the cable tray

AI Overview

Use stand-off brackets or adjustable mounting supports to elevate a cable tray safely and securely. Industrial or Wall-Mounted Cable Trays To raise a cable tray off the floor or wall, stand-off brackets (SOBs) are commonly used. These brackets provide clearance beneath the tray, allowing access for cable ties, nuts, and other fittings, and are fully slotted for on-site adjustment to achieve the desired height . When installing: Select the appropriate bracket based on tray type and load requirements. Mark the mounting points on the wall or support structure. Attach the brackets securely using screws or bolts, ensuring they are level and spaced according to the tray's load and type (typically 1.5–3 meters apart for ladder trays) . Place the cable tray onto the brackets and secure it with the provided fittings. Check alignment and stability before laying cables. Under-Desk or Standing Desk Cable Trays For desks, raising a cable tray involves mounting it beneath the desktop to keep cables organized and off the floor: Position the desk upside down to access the underside easily . Align the cable tray where you want it to sit, allowing enough clearance for cables and desk movement . Mark the installation points and attach mounting brackets or screws. Hook or secure the tray onto the brackets, ensuring it is level and stable. Route cables through the tray, using hook-and-loop straps or clips to prevent sagging and allow smooth desk height adjustments . Tips for Safe and Effective Elevation Always plan the tray route before installation to avoid interference with other equipment or structures . Ensure supports are strong enough to handle the tray's weight plus the cables. Maintain proper slack in cables to accommodate movement if the tray is under a height-adjustable desk . For long runs, consider using rollers or additional supports to prevent sagging and maintain alignment . By using the correct brackets and following proper mounting procedures, you can safely raise a cable tray for both industrial and office setups, ensuring accessibility, organizatio...
