

Huijue Fiber Core Power Optical Cable Price List

AI Overview

Huijue single-mode fiber optic cables typically range from \$0.10 to \$0.50 per foot for standard single-mode cores, with prices increasing for higher core counts or specialized constructions. Estimated Pricing For Huijue single-mode optical cables, the unit price depends on several factors:

- Fiber Type and Core Count:** Single-mode cables with 1–4 cores generally cost \$0.10–\$0.50 per foot, while higher core counts (12, 24, or more) can reach \$1–\$6 per foot depending on specifications and application.
- Cable Construction:** Indoor riser-rated cables are less expensive than plenum-rated or armored cables designed for harsh environments or direct burial, which can cost \$0.50–\$5 per foot.
- Bulk Purchase Discounts:** Buying in bulk from manufacturers like Huijue can reduce per-foot costs by 20–40% compared to retail prices.
- Factors Affecting Price:**
 - Installation Type:** Underground or outdoor installations generally increase costs compared to indoor or aerial runs.
 - Material Quality:** Glass fiber cores offer superior performance for long-distance, high-speed transmission but are more expensive than plastic optical fibers.
 - Pre-Terminated Assemblies:** Factory-terminated cables or patch cords with connectors cost more than raw cable lengths.

Supplier Information Huijue cables are available through Shanghai Huijue Network Communication Equipment Co., Ltd., offering a range of capacities from 4 cores up to 576 cores. Verified buyers can connect with suppliers for wholesale pricing and bulk orders.

Practical Guidance For a 4-core single-mode Huijue cable, expect a wholesale price around \$0.10–\$0.50 per foot, depending on order volume and cable specifications. For larger core counts or specialized cables, prices can increase proportionally, potentially reaching \$6 per foot or more for high-capacity backbone cables. Contacting Huijue directly or authorized distributors is recommended to obtain...
