

Huijue Spectrometer Price List

AI Overview

Huijue spectrometer prices vary by model, type, and region, typically ranging from a few hundred to several thousand USD, with wholesale and bulk discounts available.

Price Ranges by Region

Germany: Suppliers like Harrer & Kassen GmbH and Analytik Jena offer Huijue spectrometers for industrial and laboratory applications. Prices are generally higher due to import costs and advanced features, with high-end NIR and Raman models costing several thousand euros per unit.

China: Factory-direct and OEM suppliers provide competitive pricing, especially for bulk orders. Standard spectrophotometers and portable models can start from a few hundred USD, while advanced laboratory-grade instruments may reach several thousand USD.

India: Price comparison platforms indicate that Huijue spectrometers are available at varying prices depending on the model and retailer. Entry-level models are more affordable, while high-precision instruments for research or industrial use are priced higher.

Factors Affecting Price

Spectrometer Type: UV-Vis, NIR, Raman, and portable XRF spectrometers differ in cost due to their measurement range, sensitivity, and application.

Application: Instruments for pharmaceutical, environmental, or industrial quality control often include additional software and calibration, increasing the price.

Order Quantity: Bulk purchases or OEM orders typically offer discounts, making factory-direct sourcing more cost-effective.

Features: Advanced features like high-resolution detectors, rapid scanning, and integrated data analysis software can significantly increase the price.

Purchasing Tips

Compare multiple suppliers across regions to find the best combination of price, warranty, and support. Consider refurbished or entry-level models for cost savings if high-end precision is not required. Contact suppliers directly for custom quotes, especially for bulk or specialized orders, as prices are often negotiable. By evaluating these factors, buyers can make informed decisions and select a Huijue spectrometer that balance...
