

Jamaica Mesh Cable Tray Prices

AI Overview

Mesh cable trays in Jamaica typically range from JMD 8,000 to JMD 15,000 per 5-foot section, depending on size, material, and supplier. Price Overview A standard 5-foot wire mesh cable tray with a width of 4 inches and depth of 2 inches, made from galvanized zinc-plated steel with electro-zinc resistance, is priced around JMD 8,000 to JMD 12,000 per section in Jamaica, depending on the supplier and finish (chrome or zinc-plated) (Villa Anyelina) . Larger widths (6", 8", 12") or heavier-duty trays may cost up to JMD 15,000 or more per 5-foot section . Factors Affecting Cost Material and Finish: Galvanized steel or stainless steel trays are more durable and slightly more expensive than basic zinc-plated trays . Size and Dimensions: Wider or deeper trays increase the price due to more material usage . Accessories: Brackets, couplers, and ceiling hangers are sold separately and can add to the total cost . Supplier and Brand: Prices vary between local suppliers such as Cesco Limited, CB Cabling Technologies Ltd, and Villa Anyelina, with some offering bulk discounts or installation support . Additional Considerations Mesh cable trays are durable, corrosion-resistant, and easy to install, making them cost-effective over time due to minimal maintenance and long lifespan . They are suitable for industrial, commercial, and residential applications, including data centers, offices, hospitals, and schools . For the most accurate pricing, it is recommended to contact local suppliers directly to request quotes based on the specific tray dimensions, quantity, and any required accessories. This ensures you get the best price and availability for your project in Jamaica.
