

Jordan makes electrical distribution boxes

AI Overview

Jordan has several established manufacturers of electrical distribution boxes, including Photon, MEC Jordan, and BETA Switchgear, offering a wide range of LV and MV panels and control systems.

Key Manufacturers

Photon Import & Export Co. – Based in Amman, Photon specializes in LV and MV distribution systems. They provide a variety of products including MCCB/MCB distribution boards, motor control centers (MCC), power control centers (PCC), automatic mains failure (AMF) panels, AC/DC distribution boards, feeder pillars, and PV combiner boxes. Photon also offers design, installation, and commissioning services for photovoltaic, medium, and low-voltage systems, along with automation and SCADA solutions.

MEC Jordan – Established in 1991, MEC designs, manufactures, and installs low-voltage electrical power distribution panels. Their offerings include MCC, ATS, PLC, and switchboards, as well as power generator installations. MEC provides complete solutions from design to commissioning for LV systems.

BETA Switchgear – Founded in 2006 in Amman, BETA focuses on high-tech switchgear assembly and control systems. They have ISO9001 certification and partnerships with Schneider Electric and TEKPAN for type-tested panels. BETA also develops off-grid PV systems and provides training for engineers and technicians.

Products and Services

Jordanian manufacturers produce a wide range of electrical distribution boxes and panels, including:

- Low-voltage (LV) switchboards and distribution boards
- Medium-voltage (MV) panels and ring main units
- Motor control centers (MCC) and power control centers (PCC)
- Automatic power factor correction and harmonic filter panels
- AC/DC distribution boards, metering panels, and feeder pillars
- PV combiner boxes and solar system control panels
- Automation, SCADA, and building management system (BMS) integration

These companies also provide desi...
