

Mozambique Fiber Optic Connectors

Overview

Mozambique is improving its digital connections to the rest of the world with the installation of two cross-border fibre cables to South Africa. The new cables routes are an alternative to standard subsea cables and were laid by ITC network provider Paratus Group, reports. Market Forecast By Type (Lucent Connector (LC), Subscriber Connector (SC), Straight Tip (ST), Multi-Fiber Termination Push On/Pull Off (MTP), Master Unit (MU), Fiber Distributed Data Interface (FDDI), Sub Multi Assembly (SMA), Other), By Application (Telecom, Oil and Gas, Military & Aerospace).

Telecommunications operator Vodacom announced this Tuesday, August 15, the arrival of the first submarine fiber optic cable in northern Mozambique, guaranteeing that it will support the growth of the country's digital economy. In a statement, the operator said that “2Africa”, considered the largest. Vodacom has landed the latest section of the 2Africa submarine cable in the city of Nacala in northern Mozambique. The northern Mozambican port of Nacala has been linked to the world's largest submarine fibre-optic cable system to improve digital communications, enabling the telecommunications company Vodacom to offer its customers a direct international gateway for faster and more reliable internet services. A first-of-its-kind data centre was also officially opened today by project partner, Master Power Technologies. This is the first submarine cable to land.
