

Nepal FOB Fiber Optic Fast Connector 4-core

AI Overview

4-core fiber optic fast connectors in Nepal are available for both single-mode and multimode fibers, offering factory pre-polished, low-loss, and field-installable solutions. Product Overview Fiber optic fast connectors are designed to simplify and speed up fiber termination by eliminating the need for hand polishing in the field. They use mechanical splice technology with a factory-prepared fiber stub and index-matching gel, ensuring precise alignment and immediate low-loss termination for both single-mode and multimode fibers. These connectors are available in SC, LC, or FC variants, with options for APC or UPC ferrules, and support fiber diameters from 250µm to 900µm. 4-Core Fiber Compatibility For 4-core optical fiber cables, these fast connectors can terminate each fiber individually, making them suitable for FTTH, LAN, CCTV, and building cabling applications. The connectors are compatible with 50/125µm and 62.5/125µm multimode fibers as well as single-mode fibers. Suppliers and Availability in Nepal Eman Communications: Offers fast connectors with online ordering and physical stores in Itahari, Butwal, and Lalitpur. They provide detailed product descriptions and support for installation. D Tech Trading: Supplies SC/APC and other pre-polished fast connectors for field assembly, suitable for single-mode and multimode fibers. Daraz Nepal: Provides a wide variety of fiber optic fast connectors online with competitive pricing and delivery options. Technovate International: Specializes in end-to-end fiber optic solutions for ISPs and cable operators, importing connectors directly from manufacturers. Pricing While exact prices vary by supplier and connector type, 4-core optical fiber cables are available per meter at competitive rates in Nepal, and fast connectors are priced according to type (SC, LC, FC) and ferrule (APC or UPC). Online platforms like Daraz and ITShop Nepal often offer disc...
