

Portuguese Micro-Module Data Center Manufacturer

AI Overview

Vertiv and Maxiglobal are leading Portuguese providers of micro-modular data center solutions, offering prefabricated, scalable, and highly customizable systems. Key Manufacturers and Solutions Vertiv offers prefabricated micro data centers that are highly customizable, enabling rapid deployment and easy on-site assembly. Their solutions integrate power, cooling, monitoring, and rack infrastructure, designed for edge computing and modular expansion. Vertiv emphasizes flexibility, scalability, and efficiency, allowing businesses to implement dozens to hundreds of modular data centers tailored to specific operational requirements. Maxiglobal provides the ModSecur® Micro Datacenter, a complete autonomous system including cooling, fire detection and suppression, UPS power, physical and logical security, and DCIM management for real-time remote monitoring. Their solutions support redundancy in HVAC and power systems, ensuring high availability, resilience, and operational continuity. Maxiglobal also offers modular IT containers for disaster recovery and proximity data center applications, with as-a-service options to reduce upfront investment. Modular DTC specializes in modular data centers for edge computing, hyperscale, and high-density environments. Their solutions are designed for rapid deployment—up to 60% faster than traditional construction—while maintaining high performance, energy efficiency, and scalability. They provide tailored architectures for critical sectors such as mining, automotive, energy, and Industry 4.0, supporting AI and HPC workloads with low latency and high availability. Additional Portuguese Data Center Providers Other notable companies in Portugal that support data center operations, though not exclusively focused on micro-modular manufacturing, include: INCD: Offers high-performance computing, distributed computing, and scala...

Vishay Intertechnology: Passives & Discrete Semiconductors

Vishay manufactures one of the world's largest portfolios of discrete semiconductors and passive electronic components that are essential to innovative designs in the automotive, industrial,

About us

About us Mission Our mission is to advance and empower the data center ecosystem in Portugal, committing to fostering innovation, sustainability, and

Modular data center | MDC | prefab | Eaton

Unlike conventional data centers, Eaton's modular data center solutions are designed, built and commissioned faster for greater response and flexibility as business needs evolve. Custom

Micro and Modular Data Center Construction

Micro and modular data centers offer businesses and organizations an agile, scalable, and cost-effective solution to meet growing IT

Top 7 Modular Data Center Companies: VMR Analyst

Modular data centers represent a highly adaptable and efficient solution for modern data management challenges. By leveraging prefabricated

Data Center Power Solutions | Siemens Energy

Power up your data center with Siemens Energy! From boosting efficiency to hitting sustainability targets, we're here to help you navigate the digital world's energy

Portugal Data Centers

List of all Data Centers located in Portugal. Find any certified, power consumption, cooling redundancy, services and features for data centers in Portugal.

Portugal is becoming the High-Tech and Data Center

Portugal has solidified its position as a global leader in high-tech infrastructure and data center development, thanks to its highly skilled workforce

The Intelligent Micro Module, the Element of Intelligent

The Intelligent Micro Module can provide simultaneous, efficient operations in order to provide the best green data center, the best asset management, and optimum

Portugal Data Centers

List of available providers and facilities in Portugal, including Colocation, Bare Metal Servers, and IaaS Data Centers.

Modular Data Centers: Prefabricated Containers and

Modular data centers are prefabricated buildings such as a container that house servers, data hall, or data center module for power and cooling.

Data Center Solutions

Its portability gives it the desired flexibility for a Disaster Recovery and proximity data center solution, making it an intelligent option in the construction of data centers.

Portugal Data Centers

Data Centers in Portugal - List of Colocation and Cloud data facilities in Portugal. Get Quotes and find Specs, Photos, Videos etc.

Lisbon Data Centers

Edged Lisbon LIS04 is a state-of-the-art data center in Portugal, optimized for AI and high-speed computing with industry-leading energy efficiency (1.15 PUE) and advanced waterless cooling.
