

Price of Fixed Connection Cable Trays

AI Overview

Fixed connection cable trays typically range from £15 to £150 per meter, depending on material, size, and load capacity. Overview of Cable Tray Types and Pricing

Cable trays are available in various materials and designs, which significantly affect their price:

- Steel Cable Trays:** Standard steel trays are durable and suitable for heavy loads. Prices generally start around £15–£30 per meter for light-duty pre-galvanized steel trays and can go up to £80–£120 per meter for heavy-duty or hot-dip galvanized options.
- Stainless Steel Cable Trays:** These offer excellent corrosion resistance and are ideal for harsh environments. Costs typically range from £50 to £150 per meter, depending on grade (304 or 316) and tray width.
- PVC or Plastic Cable Trays:** Lightweight and fire-resistant, PVC trays are generally more affordable, ranging from £10 to £40 per meter, suitable for indoor or low-load applications.
- Wire Mesh or Basket Trays:** These are versatile and allow easy cable access. Prices usually fall between £20 and £70 per meter, depending on size and material.

Factors Affecting Price

- Tray Width and Length:** Wider trays or longer sections increase material costs. Standard lengths are 1m or 3m, with widths from 50mm to 600mm.
- Load Capacity:** Heavy-duty trays designed for industrial power cables cost more than light-duty trays for data or communication cables.
- Finish and Coating:** Hot-dip galvanized or stainless steel finishes add to the price due to corrosion protection and durability.
- Accessories:** Couplers, bends, tees, and lids are sold separately and can add £5–£50 per piece depending on size and material.

Purchasing Options

Suppliers like CEF, RS Components, Direct Channel, and McMaster-Carr offer a wide range of cable trays with varying specifications and delivery options. Prices may vary based on supplier, bulk orders, and regional availability.

Key Takeaway: For a standard fixed connection steel cable tray, expect to pay £15–£120 per meter, with additional costs for accessories and specialized finishes. Choosing the right tray depends on load require...
