

Price of Fixed Steel Supports for Cable Trays

AI Overview

Steel supports for cable trays typically range from \$10 to \$150 per unit, depending on type, size, and load capacity.

Overview of Steel Cable Tray Supports

Steel supports are essential for securing cable trays in commercial and industrial installations. They include hangers, brackets, cantilever arms, wall-mounted supports, and floor or roof-mounted systems. These supports are made from high-quality steel with corrosion-resistant coatings, ensuring durability and compliance with standards such as IEC 61537.

Factors Affecting Price

Type of Support:

- Hanging clamps and bars:** Typically used for overhead installations; prices range from \$10 to \$50 per unit.
- Wall-mounted or cantilever brackets:** Support heavier loads; prices can range from \$30 to \$100 per bracket.
- Perforated angles or channels:** Used for adjustable or modular systems; prices vary from \$15 to \$80 depending on size and thickness.

Load Capacity:

Supports rated for heavier loads (up to 280 lbs per foot) are more expensive due to thicker steel and reinforced design.

Finish and Coating:

Zinc-plated or powder-coated supports offer better corrosion resistance and may cost 10-30% more than standard steel.

Supplier and Brand:

Prices vary by manufacturer and distributor. Brands like Legrand, Cablofil, Schneider Electric, and ERICO offer premium options with higher reliability and warranty.

Purchasing Options

- Direct purchase from distributors:** Websites like RS Online, McMaster-Carr, and CEF provide catalogues with indicative prices and same-day delivery options.
- Custom quotes:** For large projects or specialized supports, contacting manufacturers directly ensures accurate pricing, including shipping and installation costs.

Typical Price Range

- Light-duty supports:** \$10-\$30 per unit
- Medium-duty supports:** \$30-\$70 per unit
- Heavy-duty supports:** \$70-\$150 per unit

These prices are pre-tax and exclude delivery or installation charges.
