

Price of Galvanized Cable Tray Connector Plates

AI Overview

Galvanized cable tray plates typically range from ₹16 to ₹30 per piece in India, depending on size and height. Pricing Details Mumbai, India: Coupler plates with hardware for 25/50 mm height cable trays are priced at ₹16 per piece, while plates for 75/100 mm height trays cost ₹30 per piece. These prices are ex-stock and exclusive of GST, with delivery usually within 3–5 days and a minimum order of 50 meters. China Suppliers: Hot-dip galvanized cable trays, including ladder and perforated types, are available in various widths (150–600 mm) and materials (GI, SPHC, zinc-aluminium, aluminium alloy, stainless steel). Prices vary based on material, size, and customization, and suppliers often provide OEM options and free samples upon inquiry. Factors Affecting Price Material: Galvanized steel is more durable than mild steel and less expensive than stainless steel, offering a balance of strength and corrosion resistance. Tray Height and Width: Larger or taller trays require more material, increasing the cost per piece. Surface Treatment: Hot-dip galvanization adds to the price but enhances lifespan and rust resistance. Hardware Inclusion: Coupler plates with bolts or other fittings may cost more than standalone plates. Summary For standard galvanized cable tray plates, expect ₹16–₹30 per piece in India, with prices increasing for larger sizes, higher trays, or additional hardware. International suppliers may offer competitive pricing depending on bulk orders, material type, and customization options. Always confirm current rates with suppliers, as prices are subject to change.
