

Price of Mesh Cable Trays and U-Shaped Steel Cable Trays

AI Overview

Mesh cable trays typically range from \$30 to \$150 per tray depending on size and material, while U-shaped steel cable trays range from \$25 to \$120 per tray, with prices influenced by material, galvanization, and dimensions. Mesh Cable Trays Mesh cable trays, also known as wire basket trays, are made from galvanized steel or stainless steel and feature an open wire construction for ventilation and easy cable management. For example, the Niedax U-shaped wire mesh cable tray (54x150x3000mm) is designed for professional installations and includes an integrated connector for quick assembly, with a galvanized finish for indoor durability. Price range: Typically \$30-\$150 per tray, depending on length, width, and material quality. Materials: Galvanized steel, stainless steel, or aluminum. Applications: Industrial, commercial, workshops, warehouses, and technical rooms. Advantages: Easy cable installation, good ventilation, retrofit-friendly, and standards-compliant (DIN EN 61537). U-Shaped Steel Cable Trays U-shaped steel cable trays, also called U-channel trays, are widely used for efficient cable support, heat dissipation, and structural integrity. They are available in carbon steel with zinc coating, stainless steel, aluminum, or FRP composites. Hot-dip galvanization provides superior corrosion resistance for outdoor or industrial environments. Price range: Approximately \$25-\$120 per tray, depending on material, size, and galvanization method. Materials: Galvanized steel, stainless steel, aluminum, FRP. Applications: Commercial, industrial, and outdoor installations requiring durable and organized cable routing. Advantages: Strong structural support, corrosion resistance, easy cable placement and removal, suitable for heavy-duty or outdoor use. Factors Affecting Price Material type: Stainless steel and FRP are more expensive than galvanized steel. Tray dimensions: Longer or...
