

Price of Swiss Outdoor Cable Trays

AI Overview

Outdoor cable trays in Switzerland typically range from CHF 2 to CHF 25 per meter, depending on material, type, and surface treatment. Price Overview The cost of outdoor cable trays varies widely based on material, coating, size, and type. Common materials include galvanized steel, stainless steel, aluminum, and fiberglass (FRP), with galvanized steel being the most cost-effective for durability, while stainless steel and aluminum offer superior corrosion resistance but at higher prices. Plastic trays are cheaper but generally unsuitable for heavy outdoor loads. Surface treatments significantly affect pricing: hot-dip galvanizing (HDG) provides long-term corrosion protection and is more expensive upfront, powder coating adds wear resistance and color options, and pre-galvanized trays are cheaper but less durable outdoors. Typical Price Range Standard galvanized steel ladder trays: CHF 10–25 per meter for outdoor use, depending on width and thickness. Aluminum or fiberglass trays: CHF 15–25 per meter, offering lightweight and corrosion-resistant properties. Perforated or wire mesh trays: CHF 2–15 per meter, suitable for lighter cable loads and easier installation. Accessories such as fittings, fasteners, and supports are priced separately, often CHF 2–10 per piece, depending on material and corrosion class. Cost Considerations Order Quantity: Bulk purchases can reduce unit costs by 20–40%. Installation: Labor costs vary by region and complexity; outdoor installations may require additional supports or protective coatings. Durability Requirements: For Swiss outdoor conditions, UV-resistant and corrosion-class-rated trays (EN 61537) are recommended. Supplier Options: Swiss suppliers like Distrelec and Plica offer ready stock and next-day delivery, which may influence pricing and availability. Recommendations For heavy-duty outdoor projects, consider hot-dip galvanized steel or aluminum trays with UV-resistant coatings. For lightweight or temporary installations, perforated or wire mesh trays can reduce costs. Always include fittings...
