

Price quote for imported dual-power distribution boxes

AI Overview

The average import price for dual-power distribution boxes is approximately \$398.70 per unit, with wholesale and customized options available from Chinese suppliers. Average Import Pricing Based on import data under Sub Chapter 8504, the average price for imported power distribution boxes is around \$398.70 per unit. Prices can vary depending on specifications, voltage ratings, amperage capacity, and additional features such as overload protection, short circuit protection, and IP ratings. Wholesale and Custom Options For bulk or distributor orders, factory-direct suppliers in China offer competitive pricing that decreases with larger order volumes. Many suppliers provide customization options, including OEM branding, modular cabinet designs, top cable entry modifications, and logo embossing. Delivery times depend on order size and customization requirements, with stock items sometimes available for next-day shipping. Factors Affecting Price Several factors influence the cost of dual-power distribution boxes: Voltage and amperage capacity: Higher ratings increase cost. Material and durability: Weather-resistant or IP-rated enclosures carry a premium. Technological features: Smart monitoring, remote control, and digital displays add to the price. Customization: Specific mounting configurations, labeling, and integration with building management systems can increase unit cost. Supplier Platforms You can source imported dual-power distribution boxes from platforms such as: Alibaba: Offers a wide range of industrial and commercial dual distribution boxes with detailed specifications and supplier ratings. Made-in-China: Provides OEM and wholesale options with custom features and bulk pricing. Global Sources: Lists over 50 manufacturers with factory-direct prices and fast shipping options. Recommendation To obtain an accurate price quote, it is recommended to: Specify t...
