

Quotation for Intelligent Low-Voltage Complete Sets of Equipment in the Democratic Republic of Congo

Overview

CEP-O has floated a tender for Acquisition and Installation of Intelligent Meters as Well as the Supply of Calibration Bands Assembly Equipment in the Pilot Areas of the Cities of Kinshasa and Kananga. The project location is DR Congo and the tender is closing on 24 Jul 2025. At the same year, Low-voltage Protection Equipment was the 195th most exported product in Democratic Republic. Our air-insulated MV transformers show the lowest fire load and highest efficiency values due to the combination of innovative design, production technology and top-quality insulation. Overview Lead time: Special Order - Call for Quoted Lead Times. Main: Main Input Voltage: 480 V 3 phases. Main. The Congo Low Voltage Industrial Controls market encompasses control systems and components used in industrial environments for managing electrical processes at low voltages. Its local South African manufacturing base has been central to enabling reduced lead times, and a well-established distribution and service network has enhanced support capabilities and. For over 20 years, WEG has been a strategic supplier to the mining sector in the Democratic Republic of Congo.
