

Ranking of Vanuatu Fiber Optic Connector Companies

AI Overview

Prima Limited, Interchange Limited, and Cetelnet are among the leading fiber optic companies in Vanuatu, recognized for their expertise, infrastructure projects, and regional impact.

1. Prima Limited
Prima Limited, established in 2014 and based in Port Vila, is a telecommunications and data infrastructure firm with extensive experience in subsea and terrestrial fiber networks, satellite teleports, and data centers. The company manages the ICN1 subsea cable system connecting Vanuatu to Fiji and is developing the world's first SMART cable system linking Vanuatu, New Caledonia, Australia, and Fiji, scheduled for 2026. Prima collaborates with international technology partners such as Alcatel Submarine Networks and Pacific Peering, highlighting its strong regional and global connections.

2. Interchange Limited
Interchange Limited is a Vanuatu-based consortium focused on nation-building telecommunications infrastructure. It provides subsea bandwidth connectivity, FTTH (Fiber to the Home) technology, and managed solutions ranging from 1 Mbps to 10 Gbps. The company is instrumental in delivering free Wi-Fi services (HALO) in partnership with the Vanuatu government and is actively expanding its fiber optic network across urban and rural areas. Interchange's emphasis on innovative connectivity solutions and public-private partnerships positions it as a key player in Vanuatu's digital infrastructure.

3. Cetelnet
Cetelnet is a trusted fiber optic contractor in Vanuatu, offering turnkey solutions including design, installation, splicing, testing, and maintenance of fiber networks. With experience across the Pacific Islands, Cetelnet specializes in aerial, underground, and in-building fiber networks, ensuring high-capacity, low-latency performance. The company provides end-to-end project management, certified technicians, and long-term support.
