

ST16R adapter price

AI Overview

ST16R rotor adapters for centrifuges are currently priced around \$25 to \$40 per piece, depending on the vendor and shipping options. Pricing Overview On eBay, a single ST16R rotor adapter compatible with 2ml, 15ml, and 50ml tubes for centrifuge models 5810R/5804R is listed with prices typically in the \$25-\$35 range, often including free shipping. Amazon offers similar 1-piece ST16R adapters, with prices around \$30-\$40, subject to availability and shipping. Specialized lab suppliers like Centrifuge Parts UK may also carry ST16R adapters, though prices can vary and may include additional shipping or import fees for international buyers. Additional Considerations Compatibility: Ensure the adapter matches your centrifuge model (ST16R, 5810R, 5804R) and tube sizes (2ml, 15ml, 50ml). Shipping and Delivery: Prices may include free shipping on eBay, while Amazon and UK suppliers may charge separately. Delivery times vary by location. Promotions: Some vendors may offer temporary discounts or bundle deals with rotors or centrifuge packages. For the most accurate and up-to-date pricing, it is recommended to check the vendor listings directly, as prices can fluctuate based on stock, promotions, and shipping options.
