

ST5114 Interface

Overview

2 in 1 PCIE Combo Card - expands 2 x M. 5Gb Ethernet RJ45 ports via a PCIe 3. Compatible with PCIe x4/x8/x16 slots (includes standard & low-profile brackets).
Application Note Crevis I/O - Important electrical info for Crevis I/O. How to build a stable and safe system NA-9286, Check if communication is OK?

A compact and distributed solution, RSTi is easy to configure, manage and upgrade. RSTi I/O unlocks the continuity, connectivity, and collaboration for your. Detects binary pulses of 24 VDC If you have any questions, please contact our technical application consultants. The meter records binary pulses of 24 VDC and transmits the meter reading to the installed bus system. This document provides essential instructions for mounting and adjusting the actuator on control valves, including details on connecting the spindle, setting limit switches, and configuring the feedback potentiometer.
