

South Africa Certified Aggregation Switch 100G

AI Overview

The Ubiquiti UniFi Enterprise Campus Aggregation Switch (ECS-Aggregation) is a high-performance 100G/25G Layer 3 switch available in South Africa. Key Features The Ubiquiti UniFi ECS-Aggregation is designed for large-scale enterprise and campus networks, offering:

- High-density connectivity: 48 x 25G SFP28 ports and 6 x 100G QSFP28 ports for high-speed aggregation.
- Switching capacity: 1.8 Tbps, supporting high-throughput environments.
- Advanced Layer 3 features: Multi-Chassis Link Aggregation (MC-LAG), Layer 3 failover (VRRP), BGP dynamic routing, and OSPF support for redundancy and optimized traffic handling.
- Redundancy and reliability: Two hot-swappable power modules (1+1 redundancy) and five hot-swappable fan modules (4+1 redundancy) ensure continuous operation.
- Management and security: Managed via Ubiquiti's UniFi Controller, supporting VLANs, ACLs, and 802.1X authentication for secure and scalable network management.

Physical and Installation Details

- Form factor: 1U rack-mountable, compatible with 4-post racks or center-mount brackets on 2-post racks.
- Touchscreen interface: 1.3" touchscreen for local monitoring and configuration.
- Etherlighting™ technology: Provides enhanced Layer 3 aggregation performance.

Availability in South Africa Laptop Direct and Miro list the ECS-Aggregation switch as available for purchase in South Africa. Pricing reference: Approximately R101,345 (subject to change and stock availability) as of 2025. Accessories such as 100G direct attach cables, optical modules, and hot-swappable fan/power modules are also available locally.

Use Cases Ideal for enterprise campus networks, data center aggregation layers, and high-density network environments. Supports high availability system design with MC-LAG and Layer 3 failover, making it suitable for mission-critical applications. The Ubiquiti Uni...
