

UPS power solutions from Swiss Power Systems

Overview

Swiss power Solutions can supply an extensive range of both single and three-phase Uninterruptible Power Supplies (UPS). These units range from 650VA to 1.6MVA and are available in rack, tower or versatile (rack/tower) formats. A UPS differs from an auxiliary or emergency power system or standby generator in that it will provide near-instantaneous protection from input. We specialise in the planning, installation and maintenance of power supply and storage systems as well as compensation systems for our customers in Switzerland and for internationally active companies abroad. This. In addition to one of the largest selections of UPS equipment in the market, Power Solutions offers turn-key installation and project management services to help you execute a seamless UPS replacement or new build. From 1 KW single phase UPS to 4800 KW three phase systems. A diverse range of UPS solutions is available All products are engineered to cater different power requirements, ensuring that. intreXis is a prominent manufacturer of high-efficiency DC/DC converters, offering a range of power supplies with input voltages from 24 V to 1500 V and output power between 50 to 500 W, tailored for railway applications. Their expertise also extends to customized power supply solutions, addressing.
