

Vanuatu Fiber Optic Splicing Company

AI Overview

Cetelnet, Prima Limited, SPLIZE TECH Vanuatu, and Interchange Limited offer fiber optic cable splicing services in Vanuatu. Cetelnet is a certified fiber optic contractor operating across Vanuatu, including Port Vila. They provide end-to-end fiber optic services, covering network design, installation, fusion splicing, termination, testing, and maintenance. Their technicians are trained to international standards, and they handle aerial, underground, and in-building fiber networks. Cetelnet serves telecom providers, government agencies, corporate enterprises, healthcare facilities, and educational institutions, offering reliable, low-loss connections and long-term support agreements (Web results).

Prima Limited Based in Port Vila, Prima Limited specializes in telecommunications and data infrastructure, including terrestrial fiber networks and international subsea cables. They manage operations for the ICN1 subsea cable system and are involved in the upcoming SMART cable system linking Vanuatu to New Caledonia, Australia, and Fiji. While their focus is on large-scale infrastructure, they also provide maintenance and operational support for fiber optic networks (Web result).

SPLIZE TECH Vanuatu, with technicians like Trevor Liliu, offers fiber optic installation, splicing, and maintenance for government projects, telecom companies such as Digicel and Unelco, and other commercial clients. They have experience building and extending fiber networks across Port Vila and surrounding areas, ensuring high-quality signal integrity and network reliability (Web result).

Interchange Limited provides nationwide telecommunications infrastructure, including fiber-to-the-home (FTTH) solutions and subsea cable connectivity. They support ISPs and government projects, offering managed fiber services and robust network solutions. While their primary focus is on large-scale connectivity and bandwidth solutions, they also provide technical support and infrastructure services that include fiber splicing and network...
